Unit-II

2. [A] Read the following passage carefully and answer the questions given below :

Some people think that the aim of education is merely to give knowledge.

(3)

These people want students to read books and only books and do nothing else but add to their knowledge. Others believe that knowledge alone is not enough. Only that which enables a person to earn his living can be called education. Such people think that bread is more important than anything else. Still others have the opinion that education should aim solely at making good citizens and good patriots. All these people see only one of the several purposes of education. As a matter of fact, education should aim at all these three things together. It should give people knowledge, make them self-reliant and able to serve others. It should produce persons who love their own nation but who do not want to harm other countries.
